## **Township Efficiencies**

**Starting in October 2021, now resulting in approximately sixteen thousand dollars saved annually:**

-Saved the township money by closing the AT&T phone account, which was running about \$500-\$700 a month.

-Streamlined the full time employee healthcare reimbursement process to make it less wasteful and more efficient.

-Saved the township about \$1400 a year by canceling the needless medical catastrophic insurance no longer needed.

-Saved the township about \$1000 annually by switching to a different CPA for the annual audit.

-Saved the township money by negotiating the Verizon bill down by hundreds of dollars a month, from about \$400-\$600 a month to about \$275 a month.

-Saving money on the electricity bills by passing and moving forward with solar energy use, an estimated yearly savings of \$1360.

### **Prior years, building structure energy efficient improvements:**

In 2019, the town office/hall was reroofed, saving money on the heating bill.

About 12-15 years ago, new energy efficient windows were installed.

About 12-15 years ago, the town office/hall's attic was double insulated.
